TO WHOM IT MAY CONCERN

I have known GREG HUNTER for several years and during that time has worked as a carpenter on a complex Ski Lodge in Thredbo and as a working supervisor on a renovation in Perisher Valley. Both projects were completed on incredibly tight schedules to the entire satisfaction of the architects.

During that time have come to think of him as an intelligent, honest, thoughtful and conscientious person. Greg's work was to incredibly high standards and no work was proved too difficult for him. Greg has fine leadership qualities and can influence men to try to reach his very high standards.

As a carpenter or working supervisor on complex work, I have no hesitation in recommending him for a position commensurate with his abilities.

  
John Fielding.
